## PERFECTLY AGED WINES FROM MAXIMIN GRÜNHAUS

**The challenges of 2024 have given us a reason to pause and reflect gratefully on the series of excellent vintages from the past.**

Since taking over the operational management of the estate in 2016, we have consistently stored wines in the Schlosskeller to offer these matured wines at their optimal drinking stage. This year, for the first time, there is an opportunity to purchase these perfectly aged wines. They feature a special capsule reminiscent of the capsules from the 1980s at Grünhaus and are unfortunately available only in limited quantities. The wines of the Schlosskeller-Reserve are a testament to the centuries-old winemaking goals at Maximin Grünhaus: the creation of the finest and most enduring wines.
